PROFESSIONAL SUMMARY

Aspiring Full-Stack Developer with hands-on experience building scalable web applications using React.js, JavaScript, Node.js, and Python. Experienced in developing responsive user interfaces, integrating REST APIs, optimizing application performance, and collaborating on real-world software projects. Passionate about AI-powered solutions, full-stack development, and writing clean, maintainable code while continuously learning modern technologies.

TECHNICAL SKILLS

Languages: JavaScript, Python, Java, C, SQL

Frontend: React.js, HTML5, CSS3, Tailwind CSS

Backend: Node.js, Express.js, Django, Flask

Database: SQLite, MySQL

Tools: Git, GitHub, Prisma, Render, Postman, VS Code, Cursor

EXPERIENCE

Adore Technologies

Jul. 2026 – Present

Frontend Developer Intern

Remote

- Developed and improved responsive user interfaces using React.js, JavaScript, HTML, CSS and Tailwind CSS.
- Worked on the MyShop and Simtrak Software projects by fixing frontend bugs, improving UI consistency and implementing new features.
- Built vendor-side UI components including customer profile, vendor profile, search pages and leave request module.
- Resolved issues related to logout flow, location display, vendor management, offline comments, product description, menu filtering and total amount calculation.
- Collaborated with backend APIs, tested application workflows and used Git/GitHub for version control.
- Participated in feature development, debugging, testing, and UI optimization while collaborating with senior developers in an Agile workflow.

PROJECTS

Nayan-AI | [GitHub](#)

- Tech Stack:** Python, Google ML Kit OCR, SmolLM2, VITS, Android
- Developed an offline AI assistant that enables visually impaired users to read printed text using OCR and receive real-time speech output.
- Integrated multilingual OCR, intelligent text processing, and on-device inference to deliver fast, reliable performance without internet connectivity.
- Optimized the AI pipeline for reduced latency and improved accessibility across Android devices.

Styling Station | [Live Demo](#)

- Tech Stack:** React.js, REST APIs, Tailwind CSS, Node.js
- Built a responsive full-stack e-commerce platform with authentication, product catalog, shopping cart, and order management.
- Integrated backend REST APIs for user management, product operations, and order processing.
- Designed reusable React components and optimized UI responsiveness across desktop and mobile devices.

Elite Summer of Code (ELSoC)

2026

Open Source Contributor

Remote

- Selected as a contributor in Elite Summer of Code(ELSoC), An open source program recognizing student developers.
- Contributed React.js frontend enhancements, responsive UI improvements, and bug fixes for open-source projects.

CERTIFICATIONS

- AI & Machine Learning with Python** – Venura Tech Training Program (May 2026 – Jun 2026)

Jul 2026

[View Certificate](#)

- Generative AI Essentials** – TCS iON (AI for All Program)

Apr 2026

[View Certificate](#)

- Generative AI Literacy** – Simplilearn SkillUp

May 2026

[View Certificate](#)

EDUCATION

Chaudhary Charan Singh University

2025 – 2028

Bachelor of Computer Applications (BCA)

Expected Graduation: 2028

- Relevant Coursework: Data Structures, DBMS, Operating Systems, Computer Networks, Web Development, Object-Oriented Programming, Software Engineering.
- Actively building full-stack and AI-based projects while gaining practical industry experience through internships and open-source contributions.
